Practice Description

**Using Peer Tutoring to Teach Social Studies Content**

**What is the level of evidence?**

- This is a research-based practice for **students with disabilities** based on two methodologically sound group experimental studies with random assignment across 47 students with disabilities.

- This is a research-based practice for **students with emotional disorders** based on two methodologically sound group experimental studies with random assignment across 31 students with emotional disorders.

**Where is the best place to find out how to do this practice?**

The best place to find out how to implement peer tutoring to teach social studies is through the following research to practice lesson plan starters:

- **Using peer tutoring to teach world history (Mastropieri et al., 2003)**

**With whom was it implemented?**

- Students with
  - Emotional disorder (2 studies, n ≥ 31)
  - Learning disabilities (3 studies, n ≥ 15)*
  - Intellectual disability (1 study, n ≥ 1)
- Grades ranged from 7th – 12th
- Gender
  - Males (n ≥ 35)*
  - Females (n ≥ 14)*
- Ethnicity
  - African-American (n ≥ 7)*
  - White (n ≥ 20)*
  - Hispanic (n ≥ 2)*
  - Asian (n ≥ 1)*

*Not all studies disaggregated participants by the above categories. Therefore, these data reflect the number of participants from studies that disaggregated for the relevant category. All studies contributing to the level of evidence for this practice did demonstrate effects for students with disabilities.
What is the practice?

Peer learning has been described as “people from similar social groupings who are not professional teachers helping each other to learn and learning themselves by so doing” (Topping, 2005, p. 631).

Reciprocal peer tutoring was used to teach:
- 20th Century World History (Mastropieri, Scruggs, Spencer, & Fontana, 2003)

Where has it been implemented?

- Self-contained classroom (1 study)
- Self-contained school for students with emotional disturbance (1 study)
