Acknowledgments

This Transition Fair Toolkit represents the contributions of several individuals including staff at Western Michigan University and the National Secondary Transition Technical Assistance Center (NSTTAC). These individuals were involved in the conceptualization, development, and review of the Transition Fair Toolkit. Without their commitment and effort, the Transition Fair Toolkit would not have been possible:

Overview of the Toolkit

The National Secondary Transition Technical Assistance Center (NSTTAC) developed this Transition Fair Toolkit to help state and local planning teams implement and evaluate a transition fair. A transition fair can take many forms, although the purpose remains consistent: to connect students and their families with resources to build successful lives after high school. Across the country, local education agencies are holding events to bring students and their families into contact with community, education, and employment service providers, as well as employers and institutes of higher education. These events may have various names, including parent night, career fair, college conference, or agency fest. Whatever the name, the development and production will be similar.

This toolkit is a practical guide for local educators and leaders who are thinking about, in the process of, or looking to improve a transition fair. It provides descriptions of essential components of a transition fair, along with detailed planning tools and resources for implementation.

Importance of a Transition Fair

Concern for poor student outcomes after graduation has led to the development of activities to increase postsecondary success. While students with disabilities are making progress toward improved outcomes, recent data from the National Longitudinal Transition Study-2 (NLTS2) reports that they are not keeping up with their same age peers without disabilities (Wagner, Newman, Cameto, Garza, & Levine, 2005). In an effort to fill the gap for students with disabilities, transition fairs have become a component of the larger transition services continuum. During the past nine years, NSTTAC has observed and assisted many efforts to plan and implement transition fairs. We have collected information and resources and are now disseminating them through this toolkit. By sharing these ideas, strategies, and procedures, we hope to help others through the process, increasing opportunities for students to learn about supports and services available to them as they transition to adulthood.

The purpose of the Individuals with Disabilities Education Act (IDEA) 2004 is to ensure that all children with disabilities are provided education and
services in a way that will prepare them for further education, employment and independent living. In order for schools to maintain compliance with the secondary transition requirements of IDEA, high school students who receive special education services set postsecondary goals as part of a transition planning process. The Individualized Education Program (IEP) must contain annual goals that connect students with school and community services to improve the student’s academic and functional achievement. These transition services are to be based on the student’s strengths, preferences, and interests. Schools are using transition fairs to fulfill many of these requirements by coordinating activities between students, family members, educational institutions, employers, rehabilitation agencies, and providers of community activities. Quality transition programming should lead to higher graduation rates and lower dropout rates, as well as improved rates of postsecondary employment, independent living, and enrollment in education and training.

Research into transition practices has illustrated that postsecondary outcomes of students with disabilities improve when educators, families, students, and community members and organizations work together to implement a broad perspective of transition planning, more appropriately referred to as transition-focused education (Kohler & Field, 2002). Kohler and her colleagues identified effective practices that were organized into the five categories of the Taxonomy for Transition Programming: (a) student-focused planning, (b) student development, (c) interagency collaboration, (d) family involvement, and (e) program structure and attributes (Kohler, 1996). These five categories are considered to be best practices in the field of transition of youth with disabilities, and are the foundation of NSTTAC’s work in identifying evidence-based practices, some of which are found in the Transition Fair Toolkit.

NSTTAC conducted a systematic literature review to identify in-school predictors of post-school success in the areas of employment, education, and independent living for secondary students with disabilities (Test, Mazzotti, Mustian, Fowler, Kortering, & Kohler, 2009). As a result of this literature review, NSTTAC has identified evidence-based predictors of post-school employment, education, and independent living success from the correlational research. They include career awareness, community experiences, interagency collaboration, occupational courses, paid employment and/or work experience, parental involvement, self-advocacy/self-determination, self-care/independent living skills, social skills, student support, vocational education, and work study. These predictors are critical components of a
Key Elements of a Transition Fair

In this first section, we provide a description of a transition fair along with the purpose and importance. This section describes the contents of the toolkit in the areas of pre-fair planning, ongoing and final planning, implementation, and wrap-up of details after the event. In subsequent sections, we provide detailed resources for planning specific transition fair components, including examples of transition fair content and materials. Our suggestions are based on the implementation of dozens of transition fairs within various settings. While no two transition fairs will look exactly alike, the information, resources and materials included in this toolkit are considered by NSTTAC to reflect best practice. Many of the tools in this toolkit include suggested times for implementation, but we also include an implementation timeline example in the appendix. These materials are presented in a notebook format to enable you to copy resources as you need them and to add materials as they become available – materials from NSTTAC, other states, and your own experiences!

Key Components of Transition Fair

The model below illustrates key components of a transition fair.
Planning Your Transition Fair

Generally, a transition fair will last several hours. The purpose of the fair is to meet the needs of its intended audience, delivering content and resources that are most likely to impact student outcomes. After the fair, planners will use survey results to determine if the intended outcomes were achieved. Planning for a transition fair ideally begins a year prior to the event. We have broken down the planning and implementation of a transition fair along a timeline of planning: pre-planning (6 to 12 months ahead), ongoing planning (1 to 5 months ahead), final planning (four weeks to one day ahead), day of event, and after the event.

Pre-planning—Six to Twelve months before the event

Early in the planning stages, it is important to build a foundation to support further planning. The pre-planning process includes the initial decisions and groundwork. There are four focus areas to be addressed at the pre-planning stage, answering who, what, where, and when for the upcoming transition fair.

Roles and Responsibilities

Transition fairs have been successfully carried out by one individual as well as by an entire team. Regardless of how many people are involved in the planning of the event, it is important to designate responsibility. Some districts hold annual fairs that are planned by the students themselves, developing skills and meeting IEP goals as part of the process. Students have planned, phoned, emailed, and auditioned entertainment for the fair, in addition to directing activities on the day of the fair.

Developing committees early on in the process, splitting the work among individuals, can help to eliminate the long list of to-do’s. A transition fair team may meet once a month or once a week; this can be decided by your team. Designating various roles and responsibilities is crucial to task completion, and the Pre-planning section holds tools to ease the process.
Resources and Funding

The cost to carry out a transition fair will certainly vary from location to location. Creating and maintaining a budget is part of the initial process. Schools have used funds from a variety of sources to create a continuum of services and amenities. Circumstances will undoubtedly drive the budget, but a successful transition fair can be held with whatever funds are available. Teams have used creative fund-raising approaches either before or at their transition fairs, (e.g., selling tickets to wear a hat or slippers to school on a particular day, or even the traditional bake sale), coming up with enough resources to deliver a meaningful experience.

Door prizes and other donations can be a vital part of the fun on the day of the fair. Door prizes might include meals at local restaurants, or a stay at a local hotel. After an initial phone contact, you can send a letter to request a door prize, and then a confirmation letter when the prize is arranged. A committee member should pick up all of the donations and later send a note of thanks.

A hospitality room for presenters and exhibitors may be supplied using donations or through the budget. When requesting donations for prizes, hospitality, freebies, or food and beverages, request specific items (e.g., 50 cookies, 100 bags for students to carry items they pick up at exhibits), or several small items for door prizes. Students might enjoy being a part of the fair by calling potential donors for initial contact or to follow-up on details.

Logistics

Determining the “when and where” of the transition fair can possibly have the biggest impact on your attendance and outcomes. Selecting the venue for your event might be as simple as reserving space within the school building. When this is not the best option, you may need to look into larger space at a local college or technical center. Whatever the location, details will need to be worked out, including facility contracts, the use of other building materials (e.g., tables, chairs), and time allotment.

Once the location has been determined, or while it is being determined, it is essential to decide on the best day and time for your fair. This decision should
be driven by the location availability, the intended audience, and the arrangement of a time that will work the best for as many of the stakeholders as possible. Other details in this section can include possible food and refreshments that will be available to participants. If there will be refreshments at your event, will there be a ticket required, will it be open to everyone all the time, or will there be any cost expected of the audience?

This part of the planning process should determine the level of involvement among stakeholders including the families, students, agencies, employers, local businesses, and community partners. The planning team should decide whether the fair will focus only on students with IEPs or on all students with and without IEPs, and whether parents will be invited, too. Will you use a keynote address, other presenters, breakout sessions, or a combination of all three as your medium for content delivery? Will the transition fair include exhibitors such as vendors, service providers, and local businesses? Section 2 will contain all of the information, resources, and examples within the pre-planning area.

**Theme, Content, and Activities**

The idea of having a theme for the transition fair may or may not be something you have thought about. While it is not necessary to build the components of your transition fair around a theme, increasingly we notice themes being used. The theme of the fair can be the focus for advertising the fair and decorating the location. Selecting a theme can help to shape content, including what the presenters or breakout sessions will present, what activities or entertainment might be highlighted, and what exhibitors will be chosen. Many activities at a transition fair could be linked to either annual or postsecondary goals identified in a student’s IEP. Section 2 of this toolkit provides several examples of themes used for transition fairs.

Below is a list of potential transition interest areas that could help to define the content of the day’s activities. The opportunities could be delivered at the transition fair through presenters, breakout sessions, exhibitors, or materials.

- Identifying and reaching long-term career goals
- Assistance with college applications and test preparation
College students with disabilities talk to students who are considering postsecondary institutions

Special services for students with disabilities at colleges and universities

Training and education for families and youth regarding living and financial options

Training for employers on issues related to hiring employees with disabilities

Coordination with other families and youth looking for adult living options

Financial issues including social security, financial aid, and scholarships

Budgeting simulation, in which each youth plays an individual with various budget needs and challenges

Activities at the fair could include an obstacle course to practice daily living skills or an information scavenger hunt to encourage students to ask questions of the exhibitors. A computer kiosk might be set up, for employment research, a short assessment, or to visit a website designed for youth in transition. Youth could sign up for state IDs, register with agencies, take a driver’s exam on paper or online, create a personalized reusable shopping list, and register or request information from education and training organizations. Maximize fair opportunities by linking activities to annual and postsecondary goals in student IEPs.

Students may find mock or real employment interviews to be valuable, but interview activities take extra time at the event as well as extra planning. The fair planning committee must put in more time to recruit employers or interviewers, to choose a suitable location, and to prepare students for the interviews. If a mock interview activity is part of the fair, plan carefully and far ahead of time to provide the highest quality opportunity to participants.

Evaluation of Planning Process

As a final step in the planning process, it is important for committee members to complete an evaluation of the planning process. Some planners use a debriefing session, with one person recording comments and recommendations. Using a written survey is an easy way to collect information in a short time. Collect all of this information in a list of changes to make for the next fair.
Ongoing Planning—One to Five Months Before the Event

Beyond the pre-planning phase, planning must continue. This ongoing planning stage will take the majority of the planning time. Now that the initial details have been decided upon, it is time to get down to the real preparation. Taking all of the basic decisions on who, what, where, and when, it is now time to finalize, prepare, and promote. These details can be broken into four segments: finalizing logistics and content, securing exhibitors, advertising, and evaluation.

Finalizing Logistics and Content Delivery

Once you have decided on a location and date, you will need to secure your venue. Reserving your space could be as easy as making a phone call or it could require a contract agreement. This reservation should entail all the details regarding the location including the set-up, clean up, specific parameters of use, time frames, cost, etc. During this time, it would be useful to map out the lay-out of the fair to make sure you have enough space for everything you wish to provide. If you are having breakout sessions or presenters, you need to account for them in your floor plan.

The content delivery will be a key to a successful transition fair. An agenda should be constructed outlining the schedule for the fair allowing enough time for participants to navigate. Placement of the exhibitors, food and refreshment area, breakout sessions, and presentations should be strategic and meaningful. Section 3 provides examples of agenda and schedule materials.

Securing Exhibitors

Exhibitors bring a wide variety of information and resources to the transition fair. Do some brainstorming to create a list of all possible exhibitors in your area, keeping in mind your theme, content, and space limitations. Include local businesses, community recreation locations, colleges or other educational institutions, employers, vendors of products and services (such as transportation, equipment, software), rehabilitation agencies, other government entities, and health care providers.
Making initial contact with possible exhibitors helps to gauge the interest in participation. This contact can be made with a letter, email, or in person. Follow up on the initial contact with additional information in a timely manner to secure involvement. This will also be the time to answer any of their questions and concerns. Provide a list of expectations of exhibitors, including time involved, venue, materials, and evaluation. Once you have a commitment from the exhibitors, the committee should keep in contact with them periodically until the date of the fair. Create name tags and table signs for each vendor and provide them with all of the fair materials including a detailed floor plan of the venue and where their booth will be located. Encourage exhibitors to bring freebies to give away to youth, and provide bags in which students can carry their treasures. Section 3 will provide examples of exhibitor materials.

**Speakers and Presenters**

Even a transition fair that lasts just one evening should include at least one focal speaker, either for a keynote presentation or for breakout sessions. Once you have determined a theme or areas of content for the fair, brainstorm as a committee to develop a list of potential presenters. Prioritize the list of names so that you can call the ones you would most like to have as presenters first. Call to offer the opportunity to potential speakers, and follow up with a letter of confirmation. About a month before the event, ask what audio-visual equipment is needed, and offer to produce handouts for the presentation.

You may have a keynote presenter in mind who can speak on a topic related to the content of the fair. Your own former students may be good candidates to present or co-present at a transition fair, and a parent speaker can add yet another perspective.

**Advertising**

A transition fair will not be a success without participants. The most challenging aspect of any school event is often motivating the target audience to attend. As educators we have access to students, but to a lesser degree parents and families. Planners of the fair will need to address how to encourage your audience to come. Use multiple forms of media to advertise
the event. From posters in the hallways to ads in the local newspaper, spread the word of the event broadly. Most advertising methods will be free or inexpensive: flyers, posters, email blasts, Facebook posts, “tweets”, school district marquees and websites, or invitations sent home with students. It might be harder to work mailings or newspaper ads into the budget, but media outlets such as radio, television, and newspapers often have free community calendars in their publications. Regardless of the way you advertise, be sure to get as much information to the stakeholders as possible. If food, entertainment, raffles, or door prizes are part of the plans, announce those activities to grab people’s attention. Will the fair be held during the school day? Will all students be invited, or only those who have IEPs? Can teachers earn Continuing Education Units for their participation? What other incentives have been created to encourage attendance?

Students will be some of the best salesmen. Students will pass along information to their families, but typically for a price. Offering students extra credit or a small token of appreciation for attending can often get their attention and transmit the information to parents. Some districts give students time in class to contact parents and others to invite them to the fair.

Teachers and other district staff may be encouraged to attend a fair outside of school hours by offering a hospitality room, prizes for the largest number of students attending, or a prize drawing just for teachers who attend. Similar prizes or incentives could encourage parents and other interested stakeholders to attend the fair. Section 3 highlights some advertising materials and resources used by various educational agencies.

**Final Planning—Four Weeks to One Day Before the Event**

While you continue to keep track of details, it is now time to invite the community and to inform teachers and students of the highlights of the planning. Help students to understand what behavior is expected from them, and what they can expect from all of the participants who have gathered for the big event.
Inviting the Community

In the last few weeks before the event, notify teachers and administrators of the final details. Invite parents and teachers, administrators, business leaders, and others to the fair. Confirm registrations, especially if a lunch count is needed, or if special meal arrangements must be made. Give plenty of information to teachers, who are vital to the success of the event, and double check that all signs, nametags, prize slips, flyers, information sheets, and evaluations are being produced.

Expectations of Students

Students should be informed of exactly what is expected of them at the event, as well as how the day’s activities will be of benefit to them. Students may need to practice some skills, especially if the fair is fulfilling an IEP goal in social or employability skills. It may also be necessary for you to prepare and orient presenters, vendors, and exhibitors to the needs and behavior of students who are severely multiply impaired or have intellectual disabilities.

Day of Event—Implementation and Onsite Evaluation

Evaluation of all the aspects of the transition fair is an important step, and is often forgotten. A transition fair can be a costly event. The school board or other funders will want to know that the fair has achieved its intended outcomes, and is worth the expense. Evaluation results can be the evidence of those outcomes. Is your intended outcome merely parent attendance, or is it to increase student knowledge of community resources, or something else?

At NSTTAC, we view evaluation as a tool for improving our work. We want to assist you in evaluating your transition fair to determine what worked, what didn’t work, and what needs changing or replicating. Whether this is your first fair or your tenth, you will want to collect data on the logistics and success. There are many ways to evaluate various aspects of a transition fair. Sample tools in this toolkit draw from levels 1, 2, 5, and 6 of NSTTAC’s Six Critical Levels of Evaluation. More explanation of our levels of evaluation are found in the Evaluation Toolkit, Second Edition found at our website: nsstac.org. Evaluations created for the students, parents, exhibitors, and planning committee members can be crafted to your individual event,
including key questions to gather responses in specific areas of interest to the planning committee.

Participants may be asked to take a pre-test and post-test to measure knowledge acquired, or asked to fill out a survey as they exit to find out if the fair was useful and relevant. You will want to know what students and families thought of the exhibitors, venue, food, speakers, breakout sessions and materials. It may be easiest to obtain student evaluations because you will have access to them after the fair. You will want to ask the exhibitors whether they want to return in the future, and about their experiences, perspectives, and concerns, about this year’s fair. Finally, you will want to hear from all of the people who made the event happen. Ask every planning team member to provide feedback on the planning and implementation of the fair. Section 5 provides examples of evaluation instruments, enabling your team to create specific evaluations for your individual needs.

Section 5 also includes examples of schedules for participants, signs, a floor plan, and other day-of-event documents.

**Evaluation of Participant Learning Outcomes**

Planning participant learning activities at the fair and evaluation of those activities after the fair allows teachers to tie the opportunities provided by the fair to their students’ annual IEP goals. IDEA (2004) requires the development of annual goals that are measured within the school year, as well as postsecondary goals which are not measured by school staff as they happen after a student has left high school, but which help to keep students moving toward satisfying adult lives.

**Tying Transition Fairs to IEPs**

Transition fairs are not only a great event for stakeholders; they can also feed directly into a student’s IEP. At every IEP during the school year and at the beginning of the school year, create and distribute information about the transition fair. Encourage teachers to link student goals to transition fair activities.
Many activities at a transition fair can be linked to annual goals, providing opportunities for students to practice new skills. A transition fair can also address postsecondary goals, bringing services directly to students, meeting IDEA requirements at the same time. Transition components of IDEA legislation are designed to better prepare students with disabilities to access the supports and services necessary to reach their desired outcomes, assisting them to become as independent as possible. Specifically, the transition services requirements of IDEA are intended for educators to:

- Assist students and families in setting goals for life after high school
- Provide the most relevant high school experiences for the student’s desired outcomes
- Connect students and families to supports and services inside and outside of the high school setting.

Samples of IEP statements are listed below. Statements such as these could be used to design annual goals for students that also support successful transition, or a link from a student’s postsecondary goal to the activities and services that will enable the student to reach those goals.

- Identify specific rehabilitation services to which student can apply
- Explain the difference between entitlement and eligibility for services
- Identify community programs offering job placement or training
- Analyze the demands and expectations of the postsecondary education setting, accessibility, academic rigor, social life and activities, various living situations
- Identify potential service, employment, transportation, or healthcare providers
- Develop student’s awareness of different jobs
- Discuss health care issues that may impact employment
- Analyze local labor market to identify job openings and local labor needs
- Explore work experiences: explorations, job shadowing, mentoring, and internships
- Analyze adult living options in the local area (e.g., group homes, supported living homes, roommates)
- Analyze locality for leisure recreation options in the community
- Analyze community for transportation options
Section 6 of the toolkit provides samples of annual IEP goals and related services. Evaluations are included to measure IEP goal measurement.

**After the Event—Dissemination, Recognition, and Sustainability**

Once the fair is over, and the hard work of planning and conducting a fair has paid off, there is still some work to do, including data collection and analysis, reporting to funders and other stakeholders, thanking the many who donated items, presented or exhibited at the fair, and looking back to help plan the next fair. The biggest suggestion for all of the post-fair tasks would be to do them as soon as the event is over. The longer the lapse of time, the less likely it is that these things will be competed.

**Data Analysis**

You have created evaluations and in some cases have already collected completed ones. Depending on your specific evaluation and your access to participants, you may be collecting some of the evaluations after the fair. In either case, once evaluation data is collected, it must be compiled, analyzed and disseminated. Make your analysis as simple or complex as needed to disseminate a report to funders and other interested parties. The results of your evaluations will also inform your planning for the next fair. Section 7 will provide examples of evaluation analysis and summary reports. Additional resources for evaluation can be found in NSTTAC’S evaluation toolkit or on the website www.nsttac.org.

Set a date to present the results of the fair to the school board and other major funders to present a summary of actual expenses, community resources used, the number of students served, and how they were served. Describe the student IEP goals that were addressed at the fair and ask funders to support the next fair. Keep a copy of every evaluation summary, for comparison after the next fair. Data from this year’s fair will mean even more when used to compare to future and previous fair results.
Recognition of Presenters, Donors, and Exhibitors

Recognizing each individual, group, or organization for their effort and support is a necessary step in your sustainability of the fair in the future. Use simple words of appreciation, delivered by email, postal mail, in the local news, or over the phone. Committee members or students can create letters of thanks, make phone calls, or a card of thanks may be printed in a career tech program print shop. A flyer thanking all the contributors of door prizes, food and other donations may be included in the information packet distributed at the fair, and reprinted in local newspapers, school websites, and parent newsletters. Section 7 provides examples of letters to thank donors and other acknowledgements.

Sustainability—Planning for the Next Fair

One of your last thoughts to wrap up the transition fair is to keep the momentum going for the next year. Most individuals or groups who hold transition fairs intend to hold subsequent events. In order to make a smooth transition from year to year, it is important to keep all the notes, data, materials, examples of evaluations, and contact information of presenters and exhibitors. Discuss and record any suggestions of changes for the next fair. Anything you can replicate the next year will save you time and effort.

Some fair committees meet near the end of the school year to plan essential details for the next fair, such as the date and location, and to conduct early brainstorming for the content of the next fair. Each step in the process described in this toolkit is intended to help teams build a foundation to sustain a successful transition fair.

Title: Rural Transition Fair Planning Agenda

Context for use: This agenda is the early planning document for a transition fair in a rural area.

Protocol for use: Send to members of core team or full planning committee before meeting for early planning.
Rural Transition Fair Planning Agenda
Meeting Agenda for a 2 hour Employment Focused Transition Fair

1. Determine grade levels of students with disabilities who would be involved in the transition fair

2. Determine the students who would be involved in the fair that did not receive special education services

3. Design response items for student questionnaire to find out what types of employers students desire to talk with at the fair

4. Determine social service agencies that should be invited to participate in the fair

5. Determine how to market the fair to potential employers to ensure their participation and determine which employers should not be invited

6. Discuss how fair will be incorporated in students’ IEPs and transition plan

Factors this team considered in decision making:
Should students without disabilities have time with employers before general education students arrive? (Yes, so they won’t have to compete for time with employers)
Should we limit the number of agencies to strengthen the employment focus, and so that employers know that this is for all youth, not just those with disabilities?
Should parents be invited? (Yes, for students with disabilities, no for students without disabilities)
Should we invite “mom and pop” businesses? (No, since they do not have living wage jobs or benefits)

Title: Transition Fair Planning Summary

Context for use: This summary may be used to structure planning for a transition fair, based on one district’s example.

Protocol for use: Planning committee leader reviews this summary before committee meets the first time. Use selected components to plan fair.
Transition Fair Planning Summary

1. This transition fair is held each year in the student union of the Tulsa Community College, South East Campus.

2. There is a committee made up of the Director of the Disability Resources for Tulsa Community College, the TCC PR representative (Media Relations), the transition coordinator for Broken Arrow Public Schools and the transition coordinator for Jenks Public Schools.

3. The transition coordinators are responsible for securing the community agency vendors for this fair. The TCC directors and coordinators are responsible for securing the representatives from the area colleges, universities and career tech schools for this fair. The event typically has 35-40 vendors with booths along the halls of the Student Union of the Tulsa Community College campus.

4. The TCC director contacts the area newspapers, and other area media outlets to arrange for public service announcements of this event. This has also included the Tulsa area morning television talk shows to conduct interviews by committee members concerning details of the transition fair.

5. Various Tulsa area food stores and restaurants are contacted and provide donated food items for the hospitality room for the vendors the night of the transition fair event.

6. The South Tulsa Area Public Schools are contacted with the information of the upcoming Transition Fair and flyers are distributed through the special education classrooms of those area school districts. Some of the public schools also send out automated phone announcements to those families with students served on IEPs beginning in 6th grade through 12th grade.

7. The evening begins with opportunities for parents and their students to walk through the various booths representing community agencies and colleges for roughly 20 minutes prior to going into large meeting rooms to hear presentations.

8. Parents whose students will need the assistance of community agencies go into a large meeting room to hear more detailed information about guardianship, SSI benefits, etc. Parents of those students who will most likely attend college or a career tech school meet into a separate large meeting room to hear specific information on the services available to college students with disabilities and what the differences are between high school (under the IDEA laws) and college (under the ADA laws).

Title: Fair Planning Power Point

Context for use: This presentation describes the roles and responsibilities of the core team and other planning committee members as one district plans its transition fair.

Protocol for use: Use a similar process in planning a transition fair. Core team members may head committees or designate others to lead the various committees.

Committee Planning Tool

After determining date, location, and number of students (schools to attend), set up committees as follows:

A. **Agency Committee** - responsibilities include deciding which agencies need to be present and to contact with invitation.
   1. Make follow up call week before fair for reminder and ask what they will need - electricity, corner booth, etc.
   2. Make laminated signs to hang either on table or overhead for easy access of location for students, parents, and others.
   3. Have tables arranged either night before or before fair begins.
   4. Have letter of thanks in envelopes to disperse to each agency before fair is over.
   5. Have sign in sheet at each agency table to keep number of students that visited with each agency.

B. **Beverage/Lunch Committee** - responsibilities include getting a count for lunches/beverages and finding donations from community
   1. If only snacks are to be provided, have in location of easy access so students can grab and go
   2. If lunch will be provided have area, trash bins, and volunteers to help pass it out to students
   3. Have volunteers ready to pick up the lunches if not being delivered
   4. Have volunteers to eat with students to ensure correct behavior and clean up

C. **Donations for student bags** - responsibilities include getting donations that students will find useful for their bags
   1. If more than one community is attending, get donations from all
   2. Items that are common: pens, pencils, highlighters, snuggles, food coupons,
   3. Be sure the bag is large enough so information they get from agencies will fit in them along with their freebies.
   4. IF bringing the students back as a whole group, placing a sticker on the bottom of the bag is a good way to have door prizes.
D. **Breakout session committee** - responsibilities include what topics the breakouts will be on and to find speakers

1. Contact appropriate speakers for the breakout topics
2. Ensure area for sessions
3. Have rotation set up for students to rotate from session
4. Have agency as either one or two breakout sessions
5. Have letter of thanks to give to speaker at last rotation
6. Ask what equipment speakers will need for their sessions

E. **Keynote speaker committee** - responsibilities include finding a keynote speaker to address students preferably in area of motivation and humor

1. Locate speaker
2. Offer mileage to speaker if travelling
3. Give speaker "theme" of fair for talk to be appropriate
4. Get brief bio for introduction purposes
5. Give letter of thanks at end of talk

F. **Paperwork Committee** - responsibilities are to have all notices and assignments for the teachers

1. As students and teachers arrive, give each teacher a rotation schedule that the students will follow for the day
2. Have each teacher assigned to a rotation - mix it up so that if several schools attend, students will be with students from other schools
3. Have agenda for day to give to each teacher, agency person, and student
4. Print agenda on colored paper and get volunteers to hand out to teachers and students as they arrive. Groups will be divided according to the color of the agenda they have. Rotation schedule will follow with colored groups.
5. Create survey for students to complete at end of fair about their likes/dislikes/interests/more information
6. Hand out survey either when group returns to auditorium at end or get completed survey BEFORE they get a lunch.
Title: Committee Evaluation of Transition Fair Planning Process

Context for use: The Transition Fair Planning Committee uses this form to reflect on and evaluate the planning process. The information gathered may be used to inform stakeholders about this year’s fair and to assist in planning next year.

Protocol for use: Complete this form at a debriefing meeting or return it to head of planning committee.

Evaluation Level: This evaluation tool focuses on NSTTAC Evaluation Planning. This level assists in the strategic planning and evaluation planning processes.

Timeframe: Evaluation collected at the fair, surveys a week after the fair, and agency records six months to two years after the fair

Dissemination Plan: We will disseminate the information to teachers, administrators, agencies, and the school board
**Title:** Proposed Budget and Actual Expenses

**Context for use:** The proposed budget and actual expenses are used to inform funders and stakeholders after the fair, and to plan funding for the next fair.

**Protocol for use:** A designated committee member collects all receipts and totals the categories. When the actual expenses are determined, the committee member disseminates the record to funders and stakeholders. The record of actual expenses is kept with the proposed budget to inform the planning of the next fair.

**Evaluation Level:** This evaluation tool primarily focuses on NSTTAC Evaluation Level Six: Evaluation Use and Dissemination. Level six evaluates (1) the dissemination of evaluation findings and (2) the extent to which findings are used to improve transition education and services.

Title: Needs Assessment for Transition Fair

Context for use: This survey is used to inform planning of the fair. Parents, students, and other potential participants complete the survey. The planning committee uses a needs assessment to determine content needs and theme for the next fair.

Protocol for use: Students, parents, teachers, and others complete this tool. Planning committee members tally the interest in each topic and plan from the list of interests.

Evaluation Levels: This evaluation tool primarily focuses on NSTTAC Evaluation Level One: Quality, Usefulness, and Relevance. This level evaluates participant reactions to professional development, technical assistance, training, or coaching.

This evaluation tool focuses on NSTTAC Evaluation Planning. This level assists in the strategic planning and evaluation planning processes.

Determining Content Needs of Target Audiences

For each item, check (✓) the target audience(s) for whom you think there is a need for content development. If appropriate, in the space provided with each item, note specific topics you think might be important for specific audiences. To help determine the needs of various transition stakeholders, you may want to conduct a brief survey to identify their knowledge of specific transition education and service practices. Then compile the information from the survey in this table.

Title: Presenter Confirmation Letter

Context for use: This letter confirms the presenter’s time slot at the fair and provides other necessary details. The letter provides contact information for presenter to request audio-visual equipment or other arrangements. The presenter is encouraged to send any handouts to a designated committee member, so that the cost of printing is not incurred by the presenter.

Protocol for use: Make initial contact 4 to 5 months before the fair. Send this letter to presenter 4 to 5 weeks before the fair. Follow up with a phone call or email contact 1 to 2 weeks before the fair.
Thank you for your willingness to share your knowledge at our Parent-to Parent Networking Day on Saturday, April 22, 2006, at Eaton Intermediate School District in Charlotte, Michigan. Parents that are attending have a child that receives special education services. These services cover a wide range of disabilities from attention deficit disorder to severe cognitive and physical impairments

You have been scheduled to present on «Session_Title» from «Session_Time». If there is a conflict, please contact me immediately at 517-xxx-xxxx. Please arrive at least 15 minutes before your session is to begin.

We have enclosed a map to Eaton Intermediate School District and a registration flyer for your information so that you are aware of the other topics that are being offered. You are welcome to participate in all of the day's events starting with coffee and donuts, which will be available from 9:00 to 9:25 a.m.

A facilitator will be assigned to your session(s). This person can introduce you if you would like. They will also assist you with monitoring the amount of time left in your session.

There are a few things that we need from you prior to the networking day. They are:

- Any audio/visual needs (overhead, PowerPoint projector, chart paper, etc.)

- We are offering lunch and would love to have you join us from noon to 12:45 but I do need a lunch count. So, please call if you plan to attend lunch.

- We are hoping to have 200 parents attend and would like to give all participants a notebook with materials from each session (whether they attend the session or not). If you can provide us with 200 copies of your materials (brochures, PowerPoint notes, handouts, etc.) that would be great but we can also copy your information. We will be assembling the notebook on April 18th, so if you could send or e-mail us your handouts by April 12th it would be greatly appreciated.

Please call, mail or email us by Wednesday, April 12, 2006 with all of the above information.

If you have any questions please contact: ________________________________

Sincerely,

Adopted from Eaton Intermediate School District
Title: Exhibitor Contact Letter

Context for use: This letter is mailed to all potential exhibitors, including agencies, employers, vendors, local businesses, and community service providers. Include a flyer for the fair and an exhibitor registration form with the contact letter.

Protocol for use: Distribute widely, 2 to 3 months before the fair.
Exhibitor Contact Letter

Agencies, Employers, Vendors, Local Businesses, and Community Service Providers:

This letter is to inform you of the upcoming Spring 2009 Transition Fair. The third annual event sponsored by the OUR Educational Cooperative and North Arkansas College will be held on Friday, May 8, 2009, at North Arkansas College Gymnasium from 9:00 a.m. - 12:30 p.m. The goal of the Transition Fair is to provide students with disabilities and their parents with information on educational and job related services and programs that are available to assist them in planning for the future.

You are cordially invited to participate in this year's event. We look forward to the information, knowledge and opportunities that you can make available to our students. Enclosed you will find a copy of the transition fair flyer and participant registration form, which must be returned by May 1, 2009. To show our appreciation for your willingness to participate, lunch will be provided to all agencies, employers, vendors, local businesspeople, and service providers.

In an effort to make the transition fair even a greater event for our students, we are requesting each vendor to provide an item for a door prize. Many vendors have done this in the past and the kids love it! These prizes will be drawn for and given away to the students throughout the day.

On the day of the event, you may arrive to begin set up by 8:00 a.m. The students and parents will begin arriving by 9:00 a.m.

If you have any questions, please feel free to contact <<Name>>.

Date

The Transition Team is hosting a Transition Fair at <<Name>> High School on Thursday, April 8 from 5:00-8:00. At least forty agencies that provide necessary services, education, and job opportunities for students with disabilities will be attending. The Owasso Area Transition Fair has become a leader in the area of providing opportunities and information to many families in the Owasso, Collinsville, Sperry, and Skiatook communities.

We would like to request a donation of a door prize to be given away at the Owasso Area Transition Fair. Local businesses that have donated door prizes in previous years include Patricia’s Pets, John’s Hardware, and IBM. Door prizes will be drawn and distributed to parents and students, who are in attendance throughout the evening. Your organization’s name will be announced at the fair, and acknowledged in a flyer distributed to all attendees.

Thank you for your participation.

Director of Emergency Services
Hayes Green Beach Hospital
321 E. Harris Street
Charlotte, MI

Dear John,

I spoke with you yesterday in regards to our need for medical emergency services for our Student Transition Conference for Eaton County students with special needs. The conference will be held on the Olivet College campus. Your services, which included an ambulance and two paramedics, will be needed on Wednesday, March 8, 2006. The hours are from 8:30 a.m. to 1:30 p.m. This is a county-wide conference; we are expecting about 250 students.

We will provide a continental breakfast and lunch for your staff. You estimated that the cost would be approximately $175.

If you need to reach me, my number is xxx-xxxx ext. xxx. Thank you so much for providing this support.

Sincerely,

Transition Coordinator

YOUR STUDENT AFTER HIGH SCHOOL
REGIONAL TRANSITION FAIR

Location, Date, Time
Come join us for a brief program that will provide information about opportunities available for students with disabilities after high school within the community and those planning to attend college. Meet with representatives from the city technology center, various colleges and community agencies to discuss the academic and vocational support services offered to students with disabilities after graduation. Learn about the differences in the delivery of support services in higher education, and receive information on what procedures to follow as your student transitions into the next phase of the educational process. The program begins at 0:00 PM at the Southeast Campus in the Student Union.

WE HOPE TO SEE YOU THERE!

E is for Energy

E is for Energy. E is for Effort. How much energy and effort do you think it takes to create, organize, and host a successful transition fair? Area II has taken on the challenge by combining the efforts of special education supervisors, secondary special education teachers, area transition consultant, administrative staff, and community members to create a worthwhile event.

Transition services are a requirement under the IDEA for students sixteen years of age and older. Transition Planning was mandated in the IDEA of 1990 and strengthened with the reauthorizations of IDEA. Transition is an ongoing, outcome-oriented process that allows communities, families, schools, and agency personnel to assist students in preparation for the demands of life that follow high school. The OUR Cooperative in collaboration with local school districts established an annual transition fair in an effort to meet student needs.

Preparation for the large event began in early October by assembling the team of professionals. Area transition consultant, Paul Johnston, educated those in attendance on the purpose of transitioning students, complete with community resources and contact information. The team chose to create the OUR Transition Task Force which will host the second annual transition fair for students in a five county region. The task force’s vision is to develop a community wide transition system to prepare secondary students for a productive adult life.

In subsequent meetings, the theme for the fair was chosen, “Unlocking the Door to Your Future: One Key at a Time”. A chair person was elected and committees were formed for the following areas: advertisement, schedules, donations, refreshments, transportation, and vendors. The team secured the North Arkansas College gymnasium for a minimal fee, more than doubling the space from last year. The time was also increased to a full day so that school districts could be staggered for optimal time with vendors.

Transition sub committees meet on a monthly basis to report on assignments and continue work. Plans are being fine tuned and future assignments given. Contacts are being made, letters written, and school representatives phoned. Several great ideas have been generated. The vendor committee is contacting the Society of Human Resource Management to provide mock interviews and interview information. Local banks are being invited to provide information on checking and savings accounts. North Arkansas College has been asked to present educational opportunities, as well as assist students in completing college entry and financial aid forms. The refreshment committee is working on ideas for morning and afternoon snacks, while the donation committee is discussing student and vendor/volunteer lunches. The schedule
committee is facing the largest challenge attempting to work around school district distance, size, and schedules.

The second annual transition fair is scheduled for May 1, 2008, at the North Arkansas College gymnasium. The event will open at 9:00 a.m. and close at 4:00 p.m. The planning committees have taken the experiences from last year to make adjustments to produce an even greater fair in 2008. We are planning for more students, more parents, more food, more vendors, and more door prizes. If even one door is unlocked to a single students’ future, then the energy and effort has all been worth while.

Title: Pre-Fair Press Release

Context for use: Designated planning committee member sends a press release 6 to 8 weeks before the fair to highlight the fair’s activities and to request donations from business, agencies, and local organizations. The press release may serve to inform funders of the opportunity to assist the planners of the fair. A similar document could be sent a week or 2 before the fair.

Protocol for use: Designated planning committee member sends press release to media outlets 6-8 weeks before the fair.
Pre-Fair Example Press Release

2012 Transition Fair – The Biggest & Best Yet!

Five Counties Involved -- Harrison, Arkansas – The Ozark Unlimited Resources Cooperative (OUR) and North Arkansas College will host the 2012 Transition Fair for high school students with special needs and their parents at North Arkansas College.

Two years ago, a group of dedicated special education teachers, special education supervisors, OUR staff, and a state transition consultant met at the OUR Coop to decide how to develop a forum to help meet the transition needs of the students in a five county area. Out of this meeting, the OUR Task Force was created and an idea was developed and executed to have an annual transition fair. This fair was to put students and their parents in touch with several different agencies that could help them with transition from high school to adult life. The Transition Fair has become an annual event.

The theme of this year’s transition fair is “Mapping Your Future”. Approximately 200 high school students are expected to participate from five counties in Arkansas including Baxter, Boone, Marion, Newton, and Searcy. Students and parents will have the opportunity to meet with representatives of 20 different agencies and organizations to discuss the services available to them in transition to life after high school.

Not only do agencies and organizations participate in and support the fair, but we invite area banks, businesses, and restaurants to help by donating food and door prizes. The OUR Transition Task Force depends on the cooperation of the schools, agencies, organizations, banks, businesses, and restaurants to make the Transition Fair happen each year. Want to help? Contact <<Name>> at <<Email>>, or call 555-555-5555.

Title: Local and School Media Article

Context for use: This article focuses on youth and what they will gain if they attend the transition conference. It is appropriate for any publication that reaches parents and youth.

Protocol for use: Place in school newsletters, as well as parent information letters, on websites, in local newspapers, and on community bulletin boards. Post in highly visible locations in the school buildings.
Eaton Intermediate School District along with all five local districts are preparing a conference for all students receiving special education services who are 9th grade and older. This first time event will be held at Olivet College on March 4th and 5th. Eaton Rapids, Charlotte and Meadowview students will be attending March 4th while Grand Ledge, Maplevally and Potterville will attend March 5th. This conference will focus on information that will assist students in their transition to the adult world.

The conference starts at 8:30 a.m. with a continental breakfast and is completed at 1:30pm with a presentation from our special education directors on the importance of student participation at their IEPC. During the conference students will attend three sessions of their choice, hear a keynote speaker, talk with employers, see what leisure and recreational activities are available in our county, eat lunch on campus and focus on their future. Some of the session topics are:

- How to Get a Job and Keep It
- Money – What to Do!
- Housing Options
- Getting What You Want and Need
- What do Employers expect from their Employees?
- Leisure and Recreational Activities
- Staying Healthy
- Staying on the Right Side of the Law
- Insurance
- Buying Your First Car
- Success in College
- Dealing with Your Emotions
- ...and many more topics that are exciting!!

Along with these sessions, approximately 20 exhibits will be set up in the halls of Mott Academic Building at Olivet College. The focus of these exhibits will be leisure and recreational activities and employment/training options. Students will have an opportunity to talk to employers and others in the community to discover what is available in their county.

The future holds many new challenges for our students and it is our hope that this conference will provide them the information they may need for a successful transition into the next phase of their lives.

If you would like more information on the events please call: <<Contact Information>>
**Title:** Flyer for Teacher Incentive Prize Giveaway

**Context for use:** The teacher incentive Prize Giveaway is established by the planning committee to increase participation of special education teachers and their students.

**Protocol for use:** Flyer is sent to all special education teachers of target participants. Send 6 to 8 weeks before the fair.

Near the end of the fair, student attendance is tallied. The 4 teachers with the greatest number of students at the fair receive the 4 prizes. The 5th prize is a drawing from the names of all teachers who attend the fair. This flyer also mentions another incentive, a hospitality room for school personnel and vendors.

Title: Save the Date Mailing to Parents

Context for use: This letter encourages parents to consider attending the transition fair, promising more information to come. This letter is used by a PAC, parent advisory committee, and includes contact information for interested parents to reach a PAC member to ask questions.

Protocol for use: Designated committee member sends this letter 8 to 10 weeks before the fair date.
Dear Parents:

How would you like the opportunity to participate in perhaps the most comprehensive fast track parents’ conference being offered this year on special education in the state of Michigan? Better yet, how would you like to enjoy a nice continental breakfast and sit down lunch without even having the expense of leaving a tip? You have probably heard the 'One Stop Shopping' motto from a very familiar retail store in our area. Well, that is an appropriate statement to describe this one day parent's conference which is being offered to parents of Special Education children of all ages.

You may be just starting out in the world of Special Education and may be struggling with all the acronyms being thrown out during an "IEP" (i.e. co-taught, looped room, categorical), or are wondering what ever happen to those old special education 'categories'. Or perhaps your child is about to transition from a local special education program to college or independent living or thinks he or she has now met Mr. or Mrs. Right. Regardless of where you as a parent are at in the spectrum, this conference will provide you with up to date resources and information on a wide range of relevant topics. You will have the flexibility of attending just the specific sessions on topics that interest you the most and also be provided with comprehensive resource material from the many other sessions presented.

Besides hearing directly from some of our region's premier educators, service specialists and attorneys, there will be opportunities for parent-to-parent networking and to meet your local school district's Parent Advisory Committee (PAC) representative(s). Please make plans to attend this special conference for parents on Saturday April 22nd. More specific conference information will be provided soon, however, you may reserve your spot today by calling the School District PAC Hotline at (517) 555-5555 [Lansing exchange (517) 555-5555] and dialing Ext. 3000. Online registration will be available in the near future by visiting the EISD web site.

Re: Eaton County Student Transition Conference

The final arrangements are being made and we only have two weeks before the big event at Olivet College.

Attached is the Registration Flyer and packet that was sent to your teachers. We have received many registration forms but many are still out. My records show that you have 34 students eligible to participate and we have received 31 registration forms to date. If you would like to know which students are missing, please call us for that information.

If you have any question about the attached information please call me at 555-5500 ext. 110.

<th>Teacher List of Student Expectations</th>

<tbody>
<tr>
<td><strong>Context for use:</strong></td>
<td>Students should be informed of behavioral and other expectations before the transition fair. A list sent to teachers may prompt discussion of many aspects of the fair before the day of the fair. The list and discussion may improve student outcomes from the fair.</td>

<tr>
<td><strong>Protocol for use:</strong></td>
<td>Send to teachers 1-2 weeks before the fair. Teachers may want to make copies of the student expectations list to post or to hand out to students.</td>

</tbody>

Teacher List of Student Expectations

Each district needs to decide how they will handle students who are not attending the fair. (For example, in Potterville they will either attend the conference or stay at home with an unexcused absence.)

Each building or teacher may want to pull all the students together who are attending the conference to talk to them all at once about their expected behaviors. You could have either a lunch time pizza party for them or during 1st hour donuts and juice.

At this meeting or in a hand out for all students you will want to cover what the expectations are for attending this conference.

First and most important, the students need to understand transition and its importance. Here is a brief overview of transition.

Transition is “the process and preparing of students for the time when they leave school.”

Through the transition process we prepare students in the following areas (transition domains). The five transition domains are as follows:

- Employment
- Post-School Adult Living
- Community Participation
- Post Secondary Educational Training
- Self Determination

You may want to take some time to explain the domains and show them where this information is completed on their IEPs. Then show them how all of these areas are covered in the upcoming conference. We feel if they truly understand the importance of transition, they will be far more interested in gathering the information available to them at Olivet College.

When talking to your students please explain the following expectations to them:

**TRANSITION FAIR STUDENT EXPECTATIONS**

1. Explain to students that this is being run like a professional conference. Explain the events of the day. (If you have questions please talk to the committee member from your district).

2. Students are expected to dress appropriately. (Follow individual school dress codes at a minimum).

3. Students are to be respectful at all times, to adults, volunteers, speaker and fellow students.

*Used with permission of Eaton Intermediate School District*
4. Students are not allowed to smoke at any time on the way to, during or on the way home from the fair.

5. Students are expected to be in their correct sessions.

6. Students are expected to attend each session.

7. Students are expected to use the transportation approved by their school. Individual students may not drive their cars.

8. Students are not allowed to leave the Mott Academic Center except to go to lunch at the Kirk Center.

9. Students do not need to bring money with them. Continental breakfast and lunch will be provided.

10. Students are not allowed to bring any walkmans, CD players, video games, etc.

11. Students are to be respectful in their actions with boyfriends or girlfriends.

12. Students must have their nametags on in order to eat either breakfast or lunch.

13. There will be at least one teacher/adult in each session to assist with monitoring individual students.

March 7, 2011

Dear Parents/Guardians,

The Ozark Mountain School District in conjunction with area schools from the OUR Educational Cooperative is sponsoring the fifth annual Transition Fair on the morning of March 31, 2011, at the North Arkansas College Gymnasium in Harrison.

Approximately 35 – 40 different agencies and representatives will be present from 9:00 a.m. to 12:00 p.m. The purpose of the Transition Fair is to provide an opportunity for our students and their families to interact with a cross-section of service providers, educational/vocational institutions, employers and community and family supports, to gain information that will be helpful in student transition upon graduation from high school.

It is a one-stop setting where participants can choose among various representatives to learn more about programs and service options that can be beneficial either at present time or in the future to assist with the many transitions following the completion of high school.

The OUR Transition Task Force and myself heartily extend to each of you a special invitation to join us at this year’s Transition event.

Your attendance and participation is encouraged and welcomed!

Sincerely,

Mrs. Dorothy Saylor
Ozark Mountain School District
Special Education Teacher

February 24, 2004

Dear Parents:

Thank you for registering for the <<Name>> Student Transition Conference – Build Tomorrow Today at Olivet College on Wednesday, March 3, 2012.

The conference will start in the McKay Gymnasium on Cottage Street and move to the Mott Academic Center across the street. Olivet College will be on spring break at this time, so there should be plenty of parking on the streets adjacent to the Mott building. Parking is also available behind McKay Gymnasium.

Upon arrival, please proceed to the parent table, located just outside the McKay Gymnasium. The conference begins at 8:30a.m. with juice and donuts and an opportunity to view almost 35 exhibits. The keynote speech will begin at 9:30 a.m. in Mott Auditorium. Following the speech, parents will attend their breakout sessions. Lunch is provided at the Kirk Center cafeteria, a short distance from the Mott building. <<name>> and <<name>> have agreed to help facilitate a luncheon discussion on Transition and Setting Goals. We hope that during this time you will be able to network with other parents and gain valuable information on Transition.

Enclosed are directions to Olivet College from Charlotte. If you need further assistance please feel free to call me at <<Phone Number>>.

I look forward to seeing you on March 3rd.

Sincerely,

Transition Coordinator

**Title:** Transition Fair Floor Plan Example

**Context for use:** This example of a floor plan includes several important components: table space for exhibitors, a place to have a large group keynote presentation, which may also be divided for smaller group breakout sessions, and a designated table for signing in, picking up information, and asking questions.

**Protocol for use:** Create a tentative floor plan several months before the fair. Revise as needed.

Title: Training Room Sign Example

Context for use: A sign similar to this example should be posted on or near the door of the breakout rooms. The sign shows the name of the room, and the activities that will occur in the room at various times.

Protocol for use: Produce signs 7 to 10 days before the fair. Designated committee member attaches signs on or near the doors. Sign may be pinned to board on easel next to the door.
Training Room E

- 9:30-12:00 noon – Social Security
- 12:50-2:00 p.m. – Supported Vocational Opportunities
- 2:05-3:15 p.m. – Guardianship and Financial Planning

Title: Name Tags Template for Students, Parents, Teachers, Exhibitors and Presenters

Information: MS Publisher template (prints on Avery label #8464)

Context for use: Nametags similar to this template could be linked to a database of student, parent, teacher, exhibitor, and presenter databases. The digital version on the CD included with this toolkit provides 1 page for each type of nametag.

Protocol for use: Distribute nametags in conference packets, or at sign-in table. The fifth page of nametags is for student nametags, including spaces for the student’s three pre-selected breakout sessions.
Title: Attendance Sheet for Transition Fair Participants

Context for use: This tool provides a place for all attendees to sign in. Some fair planners have observed that it is better to have many copies of the same form for all participants, rather than direct parents to one sign in form, teachers to another, etc.

Protocol for use: Participants sign in on these forms, attached to clipboards at entry to the fair.

Title: Food, Beverage, and Door Prize Acknowledgement Flyer

Context for use: List donors of food, beverages, and door prizes. If donors have provided logos, use the business logos on the flyer. Some districts create a resource guide which includes much more information about every donor, exhibitor, and presenter who participated in the fair.

Protocol for use: Post at fair in visible location or include in information packets. A similar flyer could be used to acknowledge donors in school newsletters, on district websites, or in the local newspaper.
Acknowledgements

The Transition Team would like to thank the following business for providing refreshments and door prizes for our event. We appreciate their generosity!

Title: Parent Sessions Evaluation

Context for use: This evaluation measures the quality, usefulness, and relevance of sessions in the parent strand of a transition fair. Data gathered by this tool can be used to evaluate how well the event met its objectives, to identify continued areas of need, and to report progress to other stakeholders. The form includes a place for parents to request information from transition service providers.

Protocol for use: Include in information packet or distribute at end of conference. Parents return form to designated location.

Evaluation Level: This evaluation tool primarily focuses on NSTTAC Evaluation Level One: Quality, Usefulness, and Relevance. This level evaluates participant reactions to professional development, technical assistance, training, or coaching.

Title: Agency Evaluation of Employment-Focused Transition Fair

Context for use: Agency personnel and employers may use this survey to evaluate the employment-focused Transition Fair. The results may be used to inform planning the next fair.

Protocol for use: Hand out this survey as part of information packet at beginning of fair, or give one to each agency or employer represented. Collect before fair ends, or call each person who does not submit an evaluation.

Evaluation Level: This evaluation tool primarily focuses on NSTTAC Evaluation Level One: Quality, Usefulness, and Relevance. This level evaluates participant reactions to professional development, technical assistance, training, or coaching.

Evaluation of Participant Learning Outcomes
Title: Transition-Related Activities and Services at Transition Fair Examples

Context for use: These examples illustrate that transition-related services and activities available at the transition fair can satisfy the IDEA 2004 requirements for the identification of services and activities related to transition goal areas, and requirements for annual transition-related annual goals.

Protocol for use: Develop annual goals, and transition-related activities and services at student’s annual IEP. After transition fair, record student achievement of goals at fair, for future review of student progress.

Title: Checklist Brochure

Context for use: This checklist gives attendees a place to record which sessions they attended, and which exhibitors they visited. This brochure is used to document the students activities at the fair, and matched to transition activities and services which were written into the student’s IEP. Students are told ahead of time how many sessions they must attend and how many exhibitors they must visit to receive credit for attending the fair. Session facilitators stamp the brochure, and exhibitors initial their spaces to record the student’s attendance.

Protocol for use: Students and other attendees use this form to record their attendance at the information sessions and the exhibits. Brochure is returned to designated location on exit from the fair, and later used to document activities and services linked to IEP annual or postsecondary goals.

Evaluation Level: This evaluation tool primarily focuses on NSTTAC Evaluation Level Two: Participant Learning Outcomes. This level evaluates to what degree participants learned what was intended.

Title: Student Transition Fair Post-then-Pre Survey

Context for use: This post-then-pre-test provides an opportunity for coordinator to measure how much a student learned by attending the transition fair. This information may be used to inform future activities and provide data to stakeholders.

Protocol for use: The post-then-pre-test is given at the conclusion of the event. Students rate how much they knew before attending the event and how much they know now. Students complete the form and return to designated location.

Evaluation Level: This evaluation tool primarily focuses on NSTTAC Evaluation Level Two: Participant Learning Outcomes. This level evaluates to what degree participants learned what was intended.

Title: Student Transition Fair Pre-test and Post-test

Context for use: This pre-test and post-test measure student learning gained by attending the transition fair. This information may be used to improve future activities and provide data to stakeholders.

Protocol for use: Pre-test is administered during the weeks prior to the transition fair or as the students arrive. The identical post-test version may be given on-site just before leaving the fair or in the classroom. If administered in the classroom, the post-test should be given within a few days of attending the transition fair. Students need to identify themselves in order to match post-test with pre-test results.

Evaluation Level: This evaluation tool primarily focuses on NSTTAC Evaluation Level Two: Participant Learning Outcomes. This level evaluates to what degree participants learned what was intended.

Congratulations! You’ve been invited to participate in mock interview day on January 18. Being chosen for an interview means someone is interested in your skills, knowledge and experience. They want to see if you are a good fit for their job. You need to sell yourself!

The interview is when you want to tell the employer about your strengths, skills, education, and work experience. Knowing yourself and being able to answer questions is what is going to get you the job. The best way to do this is to prepare and practice. The mock interview day is your chance to do this. The following checklist will help you do your best.

Title: Student Job Readiness Pre-test and Post-test

Context for use: This pre-test and post-test measure student learning gained by attending an employment-focused transition fair. This information may be used to improve future activities and provide data to stakeholders.

Protocol for use: Pre-test is administered during the weeks prior to the transition fair or as the students arrive. The identical post-test version may be given on-site just before leaving the conference or in the classroom. If administered in the classroom, the post-test should be given within a few days of attending the transition fair. Students need to identify themselves in order to match post-test results.

Evaluation Level: This evaluation tool primarily focuses on NSTTAC Evaluation Level Two: Participant Learning Outcomes. This level evaluates to what degree participants learned what was intended.

Re: Student Transition Conference: T-shirt Contest and Student Personal Fact Sheets

This is the first in a series of memos and notices that you will be receiving on our upcoming Student Transition Conference on March 6th and 7th at Olivet College. The committee has been working very hard to prepare for another outstanding event.

I have attached a Resume Worksheet and sample Pocket Resume, which is designed to fit on a business card.

The first year we offered this conference (back in 1998), we gave students a business card sized resume with all of their personal information on it (see attached sample). These were very well received and I know of students that still keep theirs in their wallets or purses. This year the committee decided to provide this to the students again. Please have each student completely fill out the attached Resume Worksheet. Ask your students to print neatly so that we are able to read all of their information. On the day of the conference, they will receive their personalized card.

The Resume Worksheet is due by February 15.

After the Event Dissemination, Recognition, and Sustainability
Title: Post-Fair Press Release

Context for use: Designated planning committee member sends a press release to local media outlets after the fair to highlight the fair’s activities, to acknowledge school districts, schools, teachers, students, agencies, local businesses and others. The press release may also serve to inform funders and other stakeholders of the success of the fair. A similar document could be released before a fair.

Protocol for use: Planning committee member sends the press release to report on the fair activities, and keeps a copy as a summary of the fair planning the next fair.
PRESS RELEASE

2009 Transition Fair – The Biggest & Best Yet!

Five Counties Involved – Harrison, Arkansas – The Ozark Unlimited Resources Cooperative (OUR) and North Arkansas College recently hosted the 2009 Transition Fair for high school students with special needs and their parents at North Arkansas College.

Two years ago, a group of dedicated special education teachers, special education supervisors, OUR staff, and a state transition consultant met at the OUR Coop to decide how to develop a forum to help meet the transition needs of the students in a five county area. Out of this meeting, the OUR Task Force was created and an idea was developed and executed to have an annual transition fair. This fair was to put these students and their parents in touch with several different agencies that could help them with transition from high school to adult life.

The theme of this year’s transition fair was “Mapping Your Future”. Approximately 260 high school students participated from five counties in Arkansas including Baxter, Boone, Marion, Newton, and Searcy, the largest group of students to attend since the fair was started two years ago. The students and parents had the opportunity to meet with representatives of 20 different agencies and organizations to discuss the services available to them in transition to life after high school.

Not only did the agencies and organizations participate and support the fair, but area banks, businesses, and restaurants helped by donating food and door prizes. Without the help and support of all the schools, agencies, organizations, banks, businesses, and restaurants, this idea for an annual Transition Fair would never have happened or been the success it has been and hopefully will continue to be. It is the OUR Transition Task Force’s hope that each succeeding year will be the biggest and best fair yet.

Dear «Contactname»,

We would like to thank you for your donation «Donateditem» to the Eaton County Student Transition Conference that was held at Olivet College on March 6\textsuperscript{th} and 7\textsuperscript{th}. With the support of your company, «Company», the participants at the conference had the opportunity to receive a door prize.

On behalf of the students, staff, parents, and planning committee, we would like to express our sincere thanks for your support in making this event extra special.

Sincerely,

Transition Coordinator
Planning Committee Chairperson
Title: Summary of Evaluations of Transition Fair

Context for use: This example shows the way one district organized its debriefing and summary of evaluations at a meeting following the fair.

Protocol for use: A similarly formatted document may be used at a meeting following the fair, and again at the first meeting for planning the next fair.
Summary of Evaluations of Transition Fair

EXHIBITS
Things to Change: Give shirts as gifts
Need more time to plan and organize, committee should handle everything and not have to rely on us to send information out. People contacting would be the same ones sending out letters and thank you.
Send a Copy of article about the conference and a few pictures with information.

Positives: Exhibitors seemed to enjoy the students and many stayed all day

SCHEDULE
Need to look at creative scheduling

FACILITY
Things to Change: Kirk Center – set off alarm at handicap entrance on right side of the building
Clocks didn’t work
Basement cold
Food was poor, need ice-cream
Different facility

Positive: cost

DOOR PRIZES
Things to Change: Picture presentation
Teacher door prizes

Positive: Parents loved them!
Great!

SPEAKERS
Things to Change: Marriage for juniors and seniors only
Keynote too long, 45 minutes at most
Give speakers 3 bottles of water in the a.m. for each room
More TMI and EMI sessions – more hands on topics such as pet grooming, cake decorating, and gardening. Use “**” to indicate on the registration.
Ease out parents, R.A.V.E, and Martha – need improvement
Hand out goodies at the end of session. ADD student found himself playing with flash light instead of listening and he wanted to hear the speaker

Positive: Ron Schultz; Jill Jensen; Mark Dennis; Jennifer Kurchera; Roxane (Jr. & Sr. only); and Marie Hansen (Th.)

PARENT STRAND
Things to Change: Visit exhibits early
Keynote at lunch only, then they can have longer sessions and get more individual and detailed information
Positive: 23 parents
Good Topics
Stay with just one day

PRE-CONFERENCE MATERIALS
Things to Change: Too much information
Lesson plan out earlier
Add checklist with deadlines & time frames to packet
Director Support
Count as P.D. day
Letter informing parents from director
Students from every local on committee
Speakers, committee, and addresses for the update book in stead of every teacher packet
Change teacher form and information
Add pictures to PowerPoint discs.
Color code lunches
Print different forms on different color paper
To get brochures on “How to Inspect a Used Car,” from CU, we need to order 2 or 3 months ahead.
Remind Locals they are responsible for permission

Positives: Great lesson plan! (PowerPoint overhead)
Like all the information
Good Brochure
Need more students on committee

FACILITATORS
Things to Change: Put in folders
People not showing up
Time for lunch on sheet

Positives: Lending Library

PACKETS
Things to Change: Don’t stick cards on folders – sort by district
No need for paper in packets
Better quality pencil
Take out maps and attendance
Contact list in update and committee members

Positive: none

Title: Core Team Pre-Planning Agenda

Context for use: This is an example of early pre-planning to be completed by the Core Team just after the transition fair to plan for next year’s fair. A complete year of transition fair planning agendas follows this document. Early agendas determine roles and responsibilities and look back at previous fairs. Later in the year, agendas are used to keep track of the many details of the fair’s logistics to be discussed at planning meetings.

Protocol for use: The planning committee chair sends this agenda prior to the core team’s meeting after the transition fair has been held.

## NSTTAC Indicator 13 Checklist Form A
(Meets Minimum SPP/APR Requirements)

Percent of youth with IEPs aged 16 and above with an IEP that includes appropriate measurable postsecondary goals that are annually updated and based upon an age appropriate transition assessment, transition services, including courses of study, that will reasonably enable the student to meet those postsecondary goals, and annual IEP goals related to the student’s transition services needs. There also must be evidence that the student was invited to the IEP Team meeting where transition services are to be discussed and evidence that, if appropriate, a representative of any participating agency was invited to the IEP Team meeting with the prior consent of the parent or student who has reached the age of majority. ### Does the IEP meet the requirements of Indicator 13? (Circle one)

**Yes** (all Ys or NAs for each item (1 – 8) on the Checklist)  
**No** (one or more Ns circled)
Instructions for Completing NSTTAC Indicator 13 Checklist

1. Are there appropriate measurable postsecondary goals in the areas of training, education, employment, and, where appropriate, independent living skills?

   - Find the postsecondary goals for this student
   - If there are appropriate measurable postsecondary goals that address Training after high school, Education after high school, and Employment after high school, and (where appropriate) independent living Skills after high school and if the identified postsecondary goals for Training, Education, and Employment, and (where appropriate) Independent Living Skills appear to be appropriate for the student, based on the other information regarding Present Levels of Academic and Functional Performance and / or the student’s strengths, preferences, and interests, circle Y
   - If a student’s postsecondary goals in the areas of Training and Education address both training for a career and other education after high school (e.g., enrollment in an adult education program focused on both job and independent living skills; enrollment in a college program in preparation for a career in architecture), circle Y
   - “it may not always be necessary for the student to have separate postsecondary goals for training and education in these instances. Based on the individual needs of the student and the student’s plans after leaving high school, it may be reasonable for an IEP Team to interpret the areas of training and education as overlapping in developing postsecondary goals for a student. In these instances, an IEP Team could develop a combined postsecondary goal in the areas related to training and education. Employment is a distinct activity from the areas related to training and education, and each student’s IEP must include a separate postsecondary goal in the area of employment. For further information see Questions and Answers on Secondary Transition, Revised September 2011, OSEP, Retrieved http://idea.ed.gov/explore/view/p%2Croot%2Cdynamic%2CQACorner%2C10%2C)
   - If there are postsecondary goals that address Training after high school, Education after high school, and Employment after high school, and (where appropriate) Independent Living Skills after high school, but these goals are not measurable, circle N
   - If there is misalignment between the student’s postsecondary goals, based on the information available (e.g., present levels of performance, student strengths, student interests, student preferences), circle N
   - If there is not a postsecondary goal that addresses Training after high school, circle N
   - If there is not a postsecondary goal that addresses Education after high school, circle N
   - If there is not a postsecondary goal that addresses Employment after high school, circle N

2. Are the postsecondary goal(s) updated annually?

   - If the postsecondary goals for Training, Education, Employment, and where appropriate Independent Living Skills are documented in the student’s current IEP, circle Y
   - If the postsecondary goals for Training, Education, Employment, and where appropriate Independent Living Skills are not documented in the student’s current IEP, circle N
   - If this is the student’s first IEP that addresses secondary transition services because the student just turned 16, it is considered an update for purposes of this checklist, so circle Y

3. Is there evidence that the measurable postsecondary goals were based on age appropriate transition assessment(s)?

   - Find where information relates to assessment(s) and the transition component on the IEP (either in the IEP or the student’s file)
   - For each postsecondary goal, if there is evidence that at least one age appropriate transition assessment was used to provide information on the student's needs, strengths, preferences, and interests regarding the postsecondary goals circle Y
4. **Are there transition services in the IEP that will reasonably enable the student to meet his or her postsecondary goals?**
   - Find where transition services/activities are listed on the IEP
   - For each postsecondary goal, is there a transition service such as instruction, related service, community experience, development of employment and other post-school adult living objectives, and if appropriate, acquisition of daily living skill(s), and provision of a functional vocational evaluation listed that will enable the student to meet the postsecondary goal, circle Y
   - For each postsecondary goal, if there is **no** transition service that relates to a specific postsecondary goal, (a) type of instruction, (b) related service, (c) community experience, (d) development of employment and other post-school adult living objective, (e) if appropriate, acquisition of a daily living skill, or (f) if appropriate, provision of a functional vocational evaluation listed in the IEP that will enable the student to meet the postsecondary goal, circle N
   - If a postsecondary goal area was addressed in item #1, but was not measurable and there is a transition service that will enable the student to meet that postsecondary goal, circle Y
   - If a postsecondary goal area was addressed in item #1, but was not measurable and there is **no** transition service listed that will enable the student to meet that postsecondary goal, circle N

5. **Do the transition services include courses of study that will reasonably enable the student to meet his or her postsecondary goals?**
   - Locate the course of study (instructional program of study) or list of courses of study in the student’s IEP
   - Are the courses of study a multi-year description of coursework from the student’s current to anticipated exit year that is designed to help achieve the student’s desired post-school goals? If yes, go to next instruction bullet. If no, circle N
   - Do the courses of study align with the student’s identified postsecondary goals? If yes, circle Y. If no, circle N

6. **Is (are) there annual IEP goal(s) that is (are) related to the student’s transition services needs?**
   - Find the annual goals, or, for students working toward alternative achievement standards, or States in which short-term objectives are included in the IEP, short-term objectives on the IEP
   - For each of the postsecondary goal areas circled Y in question #1, if there is an annual goal or short-term objective included in the IEP related to the student’s transition services needs, circle Y
   - For each of the postsecondary goals mentioned in question #1, if there is **no** annual goal or short-term objective included in the IEP related to the student’s transition services needs, circle N
   - If a postsecondary goal area was addressed in #1, but was not measurable, and an annual goal is included in the IEP related to the student’s transition services needs, circle Y
   - If a postsecondary goal area was addressed in #1, but was not measurable, and there is **no** annual goal included in the IEP related to the student’s transition services needs, circle N
7. Is there evidence that the student was invited to the IEP Team meeting where transition services were discussed?
   - Locate the evidence that the student was invited, (e.g., a copy of the student’s invitation to the IEP conference) Was the student invitation signed (by the LEA) and dated prior to the date of the IEP conference. If yes, circle Y. If no, circle N

8. If appropriate, is there evidence that a representative of any participating agency [that is likely to be responsible for providing or paying for transition services] was invited to the IEP Team meeting with the prior consent of the parent or student who has reached the age of majority?
   - Find where persons responsible and/or agencies are listed on the IEP
   - Are there transition services listed on the IEP that are likely to be provided or paid for by an outside agency? If yes, continue with next instruction bullet. If no, circle NA.
   - Was parent consent or student consent (once student has reached the age of majority) to invite an outside agency(ies) obtained? If yes, continue with next instruction bullet. If no, circle NA
   - If a postsecondary goal area was addressed in item #1, but was not measurable and there is evidence that agency(ies) for which parent/student had given their consent to invite, were invited to the IEP meeting to discuss transition, circle Y
   - If a postsecondary goal area was addressed in item #1, but was not measurable and there is no evidence that agency(ies) for which parent/student had given their consent to invite, were invited to the IEP meeting to discuss transition, circle N
   - If it is too early to determine if this student will need outside agency involvement, circle NA

Does the IEP meet the requirements of Indicator 13?
   - If all Ys or NAs for each item (1 – 8) on the Checklist, then circle Yes
   - If one or more Ns are circled, then circle No
Transition Fair Planning Timeline

6 to 12 Months: Pre-Planning

- Establish possible dates
- Determine location
- Identify target participants
- Identify contact people for details (e.g., facility, marketing, presentations)
- Identify funding sources, develop initial budget
- Determine content needs via data review or needs assessment
- Determine specific fair focus or theme
- Identify intended outcomes
- Identify other personnel needed for planning
- Develop plan for evaluation of planning, of participant outcomes goals.
- Inform teachers of ways to use transition fair in IEP goals.

1 to 5 Months: Ongoing Planning

- Refine budget.
- Begin schedule development for day of fair
- Identify and invite keynote and breakout presenter(s)
- Identify and invite content experts and community members
Make initial phone contact with exhibitors: agency, employer, educational, business, vendor, and recreational activity representatives

Confirm fair location

Set up menu and delivery itineraries

Develop registration – online and/or paper

Send save-the-date notices

4 to 5 Months:

Create final draft of schedule of events

Send registration information, including how teachers should prepare their students

Create transition fair evaluations

Solicit door prizes and incentives from community and employers

Confirm interested parties (initially contacted by phone), with mailed additional information and return reply card.

3 Months:

Confirm schedule of events and post on website

Confirm all presenters and participants

Arrange facilitators for presenters and monitors for breakout rooms

Order supplies (e.g., labels, folders, door prizes)

Arrange video recording and photography
1 Month to 1 Day Before: Final Planning

- Notify teachers of attendance incentives for teachers and students.
- Invite superintendent, directors, and principals to attend fair.
- Confirm menu and food delivery itineraries
- Re-confirm schedule of events and post on website
- Re-confirm all presenters, exhibitors, and participants
- Create floor plan, including information table and table for excess materials
- Finalize and print organizational materials
- Finalize and print programs
- Print evaluations for students, parents, teachers, presenters, and exhibitors
- Call for and collect presenter handouts
- Finalize and assign students to breakout sessions
- Finalize and print community and employer list
- Prepare PowerPoint slides and flip charts
- Designate volunteers for day-before-fair and day-of-fair jobs
- Announce fair in community calendars in local media: radio, newspaper, television, websites.

2 Weeks to Last Minute:

- Send pre-fair press release
☐ Create and print breakout sessions designations

☐ Assemble information packets for students, families, presenters, exhibitors, and facilitators.

☐ Make last minute changes to student and room assignments, if necessary

☐ Confirm numbers and other details with facility staff. Send final letter to special education directors of participating districts.

☐ Confirm numbers and other details with schools and administrators

☐ Send list of student expectations to teachers, so that they may share with students.

**Post-Fair:**

☐ De-brief with planning team

☐ Send post-fair press release

☐ Recognize community participants by letter of thanks and community announcements

☐ Compile, analyze, and review evaluation data

☐ Report to stakeholders: budgeted and actual spending, attendance of students and parents, participant outcomes.

☐ Start planning next year’s fair
